# STI Exit Stopper®

#### **PRODUCT OVERVIEW**

The highly effective Exit Stopper can serve as an inexpensive security device and help stop theft by alerting you to any unauthorized exits or entries through emergency exit doors.

#### **HOW IT WORKS**

If the protected door is opened, the electronic Exit Stopper emits an ear piercing alarm for 30 seconds, 3 minutes or continuously (as preset by the user). A key operated override will silence the alarm and allow authorized exits. The unit can be set for a 15 second delay before arming or tripping. Exit Stopper "Always Active" allows the key holder to reset the alarm, but does not allow the alarm to be turned off. Exit Stopper is fitted with a 9 VDC alkaline battery. It is available in red or green for almost any type of door, mounting or installation, including remote placement of the alarm.

#### **FEATURES**

- User can select whether to use as an alarm or annunciator.
- May be mounted on top, right, left or next to almost any door.
- · 105 or 95 dB warning horn.
- In exit alarm mode, alarm can be set to sound for 30 seconds, 3 minutes or indefinitely (unless disarmed with key supplied or until battery is drained).
- In annunciator mode, it announces door entry with a set of 10 beeps.
- May be programmed for 15 second entry delay or immediate alarm.
- Detects both unauthorized exits and entries.
- Recommended operational temperature range is 32° to 120°F.
- · Unit is completely self-contained.
- · STI-6400WIR supervised wireless 433 mhz (with 4 or 8-channel receiver). Up to 1000 foot (line of sight) range.
- STI-6402 provides protection for double door applications with two sets of reed contacts.
- STI-6403 allows for remote horn to be located 300 feet from the door it is protecting - 18 gauge wire not included or electrically supervised.
- STI-6404 provides protection for double doors and has remote horn capabilities (18 guage wire not included).
- · STI-6405 allows keyholder to reset the alarm, unit cannot be turned off.
- STI-6406 can be operated from both sides of the exit/entry door.
- Highly visible "stop sign" design acts as a deterrent.
- Arming delay allows unit to arm following authorized exits.
- · Available in red or green.
- Easy to install...much less expensive than heavy horizontal bar type units... and practical for all emergency doors.
- Three year guarantee against breakage of polycarbonate in normal use (one year on electro mechanical and electronic components).
